Color conveys structure, light and dark, brilliance and rhythm.

Color sets the mood and enables unlimited combinations.

TRESPA®

Natural irregularity

Natural decors and irregular faceted shapes create a surprising landscape with an authentic look.

Creating an image

The palette of cool colors beautifully translates into expressive facades.

Color Rhythm your ideas

Trespa Perspectives offer a platform where ideas can take shape, offering new opportunities for design. Color is one of the most versatile means of setting a rhythm; taut-lined and uniform or diverse and dynamic. Enabling you to combine, structure, accentuate, and create new dimensions as you like. The range features bright and subdued, light and dark colors, color families and contrasting colors. The result: eye-catching buildings with their own character and innovative designs bearing your signature. In addition to a large number of standard colors, Trespa also offers the project colors of your choice. You can give your imagination free reign, without losing sight of budgets.

Sparkling changes

Color shades, playful application and metallics combine to render a brilliant effect.

Logical mixture

A quilted pattern of soft colors bridges the gap between the building and its environment.

Unity in diversity

Colors with traditional values give shape to contemporary patterns and structures.

Making a clear statement

Taut lines and outspoken color accents let large surfaces speak up, creating depth and dimension.

Inspiration comes to life
